API: Pixel 2 API 28

Main View:
There are four icons. Press the donut for donut orders, the coffee for coffee orders, the basket for the ordering basket, and the list for store orders.

Ordering Basket:

The store ordering basket is a listview. Press on an order to begin the dialogue to remove it. This comes in the form of an alert where you can select whether to remove the order or not. You can press the button on the bottom to submit the order to the store orders view.

Store Orders:
The store orders view is a listview. Press on an order to begin the dialogue to remove it. This comes in the form of an alert where you can select whether to remove the order or not.

Coffee View:
Use the drop down menu and the checkboxes to make your coffee of choice. Press Add Coffee to add the coffee of your choice. Once you are finished, press submit coffee order to add the coffee to the current order. This will redirect you to the main view. Before you submit the order, you can use the list view to remove orders by pressing on the coffee item of your choice. Use the alert to finalize a removal. The first text view on the left showcases the cost of the item. The textview next to the prior one shows the total cost of your order.

Donut View:
Use the recycler view on the left to pick a donut of your choice. You can use the drop down to select a quantity. Press add to order to add your donut order.
